

Manual Metallic Velvet (GB)

Coverage: 1 kg / 3-4 m² for 2 layers. Or aprox 7m² 1 layer.
Content: 1kg + Color Primer

We suggest that you carefully view the video tutorial. <https://youtu.be/Co9Z6bPRYEE>

The Metallic Velvet is a 2 layer system, for nice coverage.

Application: Temp. 10°C en 30°C

Make sure that the surface is smooth, plaster ready for sauce and dustfree.

Apply the color primer with a fleece roller. Let it dry.

Apply the first layer Velvet, use a stainless steel plastering Trowel. Create horizontal and vertical half moon movements. Let it dry for 2hours. Then apply the second layer Velvet thru your first patterns.

Let this dry for 24 hours.

*Washability: After 15 days the surface is slightly washable.

*Durability: The product is suitable for constant contact with water and damp conditions if you apply PU coating.

*Staybilty: Approx 1 years if sealed and never opened, water thinnable

*Use gloves. No harmful damp. Keep out of reach of children
